NIFTY / Market Structure Mixed Test Dataset (50 Charts)

Purpose

This dataset is designed to test:

- BOS detection
- Internal vs External BOS
- Liquidity BOS
- Fake breakout rejection
- CHOCH confusion
- Trend continuation logic

Instructions

For EACH image:

1. Open image/chart
2. Hide future candles if possible
3. Run your model
4. Store prediction
5. Compare with expected label

Recommended Output Format

```
{
  "image":"chart_001",
  "prediction":"Bearish_eBOS",
  "confidence":0.84,
  "actual":"Bearish_eBOS",
  "result":"CORRECT"
}
```

Accuracy Evaluation Template

Metric	Formula
Accuracy	Correct / Total
Precision	TP / (TP + FP)
Recall	TP / (TP + FN)
False Positive Rate	FP / Total

Recommended Thresholds

Accuracy	Status
<50%	Weak
50-65%	Average
65-80%	Good
80%+	Strong

Important Validation Rules

A valid BOS should generally include:

- Swing high/low break
- Candle body close beyond structure
- Displacement/impulse
- Context confirmation
- No immediate fake reclaim

Suggested Next Step

After testing these 50 mixed charts:

1. Save all failures
2. Identify confusion categories
3. Improve rule thresholds
4. Retest on new unseen charts

5. Measure consistency over time
